Distinctive Quilts. Timeless Treasures

Long Arm Quilting Price List

We offer several categories of quilt stitch pricing to meet your needs. There are two categories: Edge to Edge and Semi-Custom. Additionally, Custom and Heirloom quilting is available by request and price is determined by the project. If you desire Custom or Heirloom quilting, please contact us to discuss your quilt. All prices include thread¹.

When your quilt top arrives, we will measure the length and width in three places*² for each direction. The average for each is used to determine the square inch size of your quilt top. Price is calculated by multiplying the width of the quilt top by the length of the quilt top (square inches) and then multiplying the result by the category price.

NOTE: Prices are more dependent on the density of the quilt stitching than the size of the quilt top. A small densely quilted baby quilt can cost more than a light density queen quilt. Designs with points cost slightly more due to the additional time it takes more time to quilt than a curvy design. Think of large open designs with spacing of 2" or more as light density and close stitching with spacing ½" or less as high in density.

- **Edge to Edge** – an all over design that is not specifically fit to blocks, designs or borders. Most designs can be adjusted to higher or lower density.
 - Edge to Edge Light \$0.0200 per square inch
 - Edge to Edge Medium \$0.0250 per square inch
 - Edge to Edge Medium/Dense \$0.0275 per square inch
 - Edge to Edge Dense \$0.0300 per square inch
- **Semi-Custom** – designs sized to fit blocks, quilts with one or two border designs in addition to the center body design. May include multiple designs.
 - Semi-Custom Light \$0.0450 per square inch
 - Semi-Custom Medium \$0.0550 per square inch
 - Semi-Custom Dense \$0.0650 per square inch
- **Custom** – all designs placed specific to the quilt top for all blocks and borders. May include multiple designs. Call to discuss your project.

Additionally, there will be a \$25 surcharge added for the additional time it takes to handle the fullness.
